19.2. The Company, after the expiry or termination of this Operative Agreement, for any reason whatsoever, may disclose any confidential non-public information concerning the Operative Agreement and/or any operation carried out thereunder, if this is considered necessary in order for the Company to abide to a court decision or the legislation of the Republic of Cyprus, Regulatory or Supervisory Authorities of the Republic of Cyprus and the Law and to the Company’s consultants, lawyers and auditors, provided that in each case the relevant professional shall be informed about the confidential nature of such information and commit to the confidentiality obligations herein as well.

- (a) Government actions, the outbreak of war or hostilities, the threat of war, acts of terrorism, national emergency, riot, civil disturbance, sabotage, requisition, or any other international calamity or political crisis;
- (b) Act of God, earthquake, hurricane, typhoon, flood, fire, epidemic or other natural disaster;

22. Termination

22.1. Each Party may terminate this Operative Agreement, with immediate effect, by giving written notice to the other Party and such termination may not affect any obligations of the Parties arisen by this Operative Agreement or by any Transactions.

22.2 The Company has the right to suspend the Client's Trading Account at any time for any good reason (including Abnormal Market Conditions) with or without Written Notice to the Client.

22.3. The Company reserves the right to immediately suspend, close or cancel any Transaction and/or suspend or close any Client Account with or without written notice to the client whenever any of the circumstances described in paragraph 23 herein below apply.

22.3. Upon termination of this Operative Agreement by either Party, the Company shall terminate all and any access by the Client to the Trading Platform and the Client shall immediately pay to the Company all outstanding amounts, including but not limited to the charges, commissions, dealing expenses derived from the termination of the Operative Agreement, charges incurred for transferring the Client's investments to another investment firm, any losses and costs, payments deriving from the closing out of any Transactions or making settlements or concluding any pending obligations which have arisen by the Company on behalf of the Client.

23. Prohibited Trading Techniques

23.1 Temporary disruptions in Internet relay and routing, connectivity delays, and price feed errors sometimes create a situation where the prices displayed on our Online Trading Facility do not accurately reflect the market rates at a specific moment of time. The use of trading strategies aimed at exploiting errors in prices and/or concluding trades at off-market prices and/or by taking advantage of internet delays and/or by generating high volumes of transactions targeting tick fluctuations (rather than price movements) where trades are opened and closed very quickly, altogether commonly known as "latency arbitrage", "sniping" or "scalping" hereinafter, collectively, referred to as "arbitrage not related to market inefficiencies" or "prohibited trading techniques", is explicitly prohibited by the Company.

23.2. The Company reserves the right, at its sole discretion, NOT to permit the abusive exploitation of arbitrage not related to market inefficiencies in its Trading Platform and/or in connection with its Services. Any indication or suspicion, in the Company's sole discretion, of any form of arbitrage not related to market inefficiencies, abuse (including but not limited to Client's trading activity patterns that indicate that the Client solely aims to benefit financially from the shortcomings of the trading system, without being genuinely interested in trading in the markets and/or taking market risk), internal hedging in coordination with other parties, fraud, manipulation, cash-back arbitrage, latency and SWAP arbitrage or any other forms of dishonest or fraudulent activity in a Client's account(s) or otherwise related or connected to any Transactions, will constitute all Transactions carried and/or profits or losses garnered as invalid. The Company reserves the right to suspend, close or cancel any other Transaction which has resulted from any misconfiguration, technical error or if the Company suspects any fraud, manipulation, voluntary or involuntary engagement by the client in arbitrage not related to market inefficiencies. Under such circumstances, the Company shall be entitled to withdraw any profits and charge any costs which it deems, in its sole discretion, to have been inappropriately gained and shall not be liable for the cancelation of any Transaction or profits or in the event of any damages or losses which may result from the suspension, closure or cancellation.

23.3. Any dispute arising from such prohibited trading activity will be resolved by the Company in its sole and absolute discretion, in the manner the Company deems to be the fairest to all concerned.

23.4. Inter alia, the Company will consider the following as indication of Transactions that rely on price latency arbitrage opportunities, and will be entitled to revoke those at the Company's sole discretion and without prior notice being required:

(a) the Trade is opened and closed within Two (2) minutes (i.e. the Order for the closing Trade follows the Order for the open Trade in two (2) minutes or less);

(b) an opposing Trade is placed within two (2) minutes of another Trade being opened thus creating a fully or partially hedged position (also known as a "locked position"); or

(c) the Order for opening or closing the Trade is placed on a latent price.

23.5 The Company also reserves the right to close/ suspend (either temporarily or permanently) all of the Client's trading Accounts and/or cancel all Transactions that had an indication of prohibited trading techniques used. Clients whose Accounts have been closed/suspended due to the use of Prohibited trading techniques will not be allowed to open any new trading Account(s) and trade with the Company. Nonetheless, in cases where such a blacklisted client successfully opens an Account and trades with our Company due to any technical and/or human error, the Company will reserve every right to immediately close such Account upon identification, nullify any profit/loss generated and refund the original amount of deposit, excluding any deposit and withdrawal charges.

23.6 The Company reserves the right to prohibit automated trading (the use of Expert Advisors) on any account, without prior notice, in case the Expert Advisor engages in the activities that can result in an excessive load on the server and negative trading experience for all clients on the same server. Such activities include but are not limited to:

- placing a significant number (more than 500 in an hour on average) of requests, such as market orders, instant orders, entry orders, order modifications,
- frequent placement and cancellation of pending orders and requests to place a new position without having sufficient funds (which causes server rejects),
- frequent login attempts.

Automated trading can be subsequently allowed on such an account once the client has proven to the Company's Trading department that an EA has been adjusted based on the above criteria.

24. Amendment

The Company reserves the right to amend the terms of this Operative Agreement at any time by giving to the Client written notice, which shall state the date that the amendments will start having effect and the continuation of the Client's acceptance of the Services provided by the Company shall be deemed to be on acceptance of such amended terms by the Client. The written notice may be posted to the

Company's website and the Client is advised to visit the Company's website on a regular basis and monitor possible amendment notifications.

25. Representations and warranties

The Client represents and warrants, at each time it grants an Instruction or Request, to the Company that:

- (e) The Client confirms that he has regular access to the internet and accepts that he will receive information, including, but without limitation, information notices about amendments to the terms and conditions, costs, fees, this Operative Agreement and about the nature and risks of investments by posting such information to the Website.
- (f) The Client confirms their consent to the Company providing them with information in a durable medium other than on paper, either by facsimile transmission, or electronic mail (email) to the telephone number and email address that were provided to the Company. In addition, the Client consents to the Company providing information that is not addressed to them personally by means of posting it on the Company's website.

26. Inactive/ archived Accounts

The Client acknowledges and confirms that any Trading Account held with the Company that are inactive for more than 3 (three) months are to be considered Inactive Account.

Inactivity means that the Client has not performed any trading Transactions on his Trading Account during the last 3 (three) months.

The Client acknowledges and confirms that the Client will be subject to a monthly charge of fifty (50) EURO or its equal in the currency of Trading Account relating to the maintenance, administration and compliance management of such Inactive Account.

The Company reserves the right to charge aforementioned monthly charge for any month in which the Company had the right to charge it but did not do so for technical reasons.

The Client acknowledges and confirms that any Inactive Account will be subject to archiving, which means that no trading terminal authorisation, trading or balance viewing operations will be available to the Client.

Once an Account is deemed inactive and is archived, any available trading benefits will be removed.

27. Client's records

The Company is obliged to keep the Client's records for at least five years after the termination of this Operative Agreement.
